

Internship Report Presentation On Online Food Ordering and management System

Organization: Dream71 Bangladesh Ltd

Position: Full-time Intern

Supervisor: Md Zahangir Alam

ID: 1821503

Name: Ananya Chakraborty Gourab

Summer 2024

- Introduction
- • The Online Food Ordering and Management System is intended to streamline restaurant operations and make ordering easier for patrons. This technology increases food delivery efficiency and improves user experience.

The purpose of the Online Food Ordering and Management System is to make ordering easier for patrons and to optimize restaurant operations. This method improves food delivery efficiency and user experience.

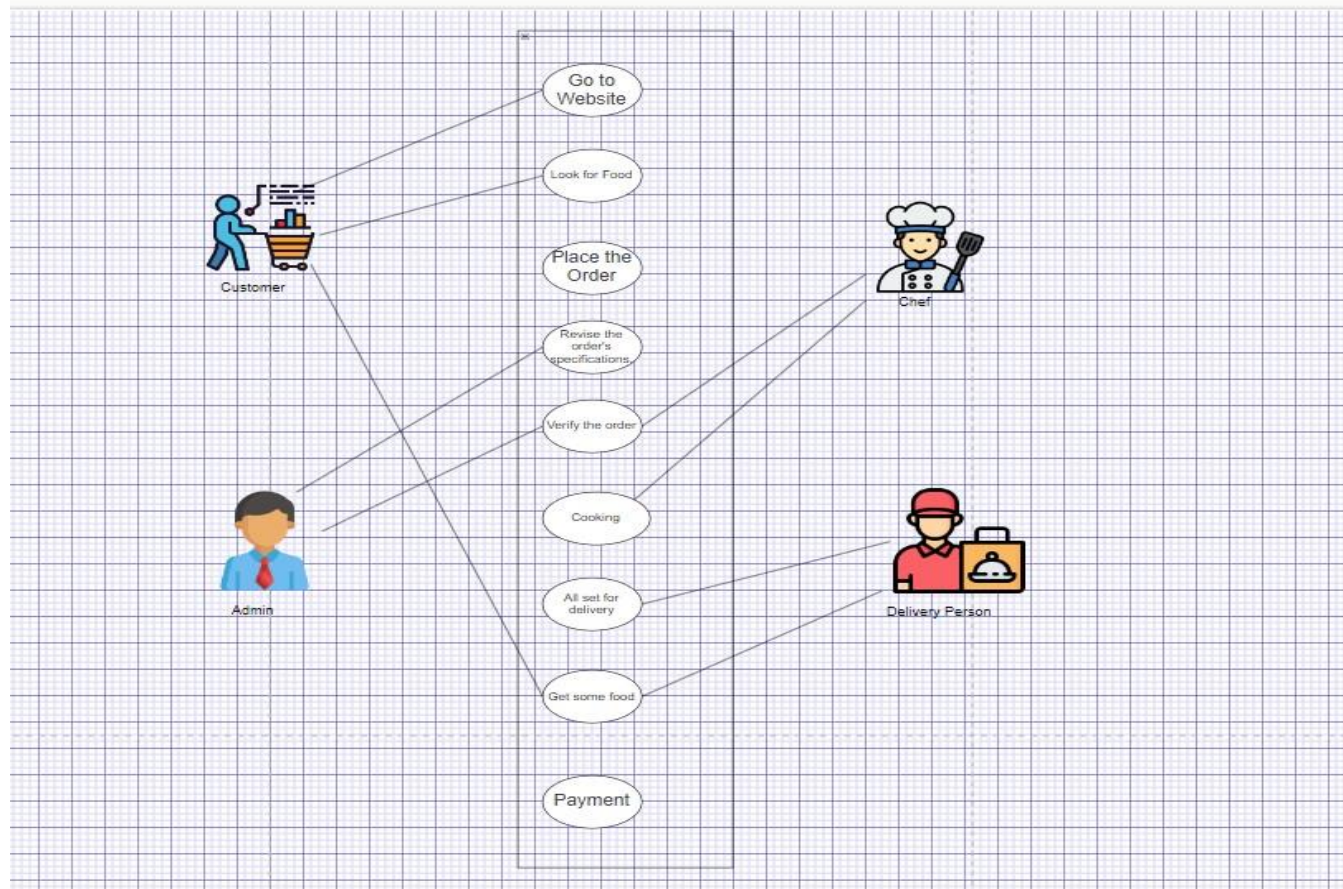

- Key Features
 - 1. User-Friendly Interface
 - 2. Real-Time Order Tracking
 - 3. Cart Management
 - 4. Menu Management
 - 5. Admin Dashboard for Analytics

- User Roles
- 1. Customers: Place orders, provide feedback, and track deliveries.
- 2. Restaurant Staff: Manage orders, update menu items, and process payments.
- 3. Admin: Oversee the entire system, manage users, and generate reports.

- Technology Stack
 - - Frontend: HTML, CSS, JavaScript, React
 - - Backend: Node.js, Express.js
 - - Database: MongoDB
- Other skills
 - ○ Time Management
 - ○ Strong Communication
 - ○ Problem Solving
 - ○ Professional Strategy

- Conclusion:
- The Online Food Ordering and Management System provides a cutting-edge answer to the problems both customers and restaurants in the food delivery sector encounter. It offers all users a smooth experience with its main features and advantages.

- User log-in page:

A mockup of a user login page. At the top right is the text "Login" followed by a close icon (X). Below this are two input fields: the first is labeled "your email" and the second is labeled "your password". Below the password field is a green button with the text "Login". Under the button is a small square checkbox. Below the checkbox is the text "By continuing I agree to the terms of use and policy." and below that is the text "Create a new account? Click here" where "Click here" is in green.

- Admin Dashboard

A mockup of an admin dashboard. At the top left is a small orange icon. At the top right is a user profile icon (a person with a gear). Below the top bar is a sidebar on the left with a plus icon and three items: "Add Items" with a checked checkbox, "List Items" with a checked checkbox, and "Orders" with a checked checkbox. The main content area is empty.

Thank you
